The ActiveSaver Complete Bleeding Control Kit (5 Complete Kits)

The ActiveSaver Complete Bleeding Control Kit is a complete, already packed cabinet that fully complies with the Department of Defense's stringent "Stop the Bleed" trademark.

Our severe bleeding control kits are not assembled to hit a price point. They include name brand tourniquets, chest seals, gauze and mylar blanket as required by Texas HB496. Clotting Gauze is available as an add-on, since there are differing opinions on use of that product.

When you analyze the reports of school shootings, it becomes obvious that a single severe bleeding kit in your AED cabinet is not going to be adequate in an active shooter situation. That's why we've created this ActiveSaver cabinet for mass casualties which allows you to keep bleeding control kits in a conspicuous and secure storage solution.

The ActiveSaver cabinet offers the best approach to storing and deploying kits in an emergency because our cabinet keeps individual cases with severe bleeding control kits that are easy to grab and relocate to the point of need. Includes 5 filled red cases.

PRODUCT FEATURES:

- This cabinet concept empowers you to "grab and go" to the point of need - no carrying handfuls of stuff or making multiple trips for something forgotten
- Velcro loop back panel allows you to position cases for maximum visibility and use of space
- Secure yet easily removable design
- Easy to replace medical supplies after used in an emergency
- We make large, laminated instruction sheets
- Cabinet includes mounting hardware, thumb turn knob, and acrylic window, 3D Wall Sign.

EACH KIT INCLUDES:

- 1 CAT Tactical Tourniquet
- 1 Hyfin Chest Seal Twin Pack
- 1 Mckesson Sterile Gauze Roll
